Kirtan Kumar Patel

kirtankumarpatel0624@gmail.com +91) 7828998697 kirtan

EDUCATION

Computer Science 09/2023 – 05/2027
VIT Bhopal University
CGPA: 8.2

XII (CBSE) 2022
St.Gabriel's Hr. Sec. School
84%

X (CBSE) 2020
St. Gabriel's Hr. Sec. School
94%

SKILLS

Programming Languages
Java, Python, C++

Data Structures and Algorithm

AI/ML

ACADEMIC PROJECTS

Helmet Detection
(YOLO, Python)
- Developed a real-time computer vision system using the YOLO algorithm to automate and monitor workplace safety compliance.

Anime Face Generation
(GAN, Python)
- Designed and trained a DCGAN on 50,000+ images to generate stylistically coherent character portraits from random noise.

Computer Vision Pushup Counter
(OpenCV, Python)
- Built a real-time fitness tracking application using OpenCV and pose-estimation (MediaPipe) to map body landmarks, calculate joint angles, and count repetitions.

Credit Card Fraud Detection
(Scikit-Learn, Python)
- Engineered an ML pipeline using Random Forest and XGBoost to identify fraudulent transactions.
- Applied SMOTE to resolve severe dataset class imbalance, achieving high precision and recall.

Customer Sentiment Analysis
(LSTM, Python)
- Developed an NLP deep learning model using LSTM networks, word embeddings, and tokenization to classify e-commerce reviews as positive, negative, or neutral.

CERTIFICATION

AIML (Specialization in Drone Technology) | TiHAN, IIT Hyderabad
(June'25- Dec'25) Learning applications of Artificial Intelligence and Machine Learning in autonomous systems and drone technology.
